

The Carlbergs of Savage are the first winners of MVEC's 1,000 kW drawing!

"With bedrooms above the garage in a split level home, we were always cold. We thought a garage heater might warm it up – and it did!" said Deb.

"And it's a real plus to have that garage so nice and warm!"

1,000
kW drawing

*It's like
CASH
in hand!*

Larry and Deb purchased an electric garage heater from MVEC and installed it to an Energy Wise® meter.

You could be our next winner!

Marathon— Hot Water For Life.

With busy lives, who has time to deal with a water heater that needs frequent attention and replacement? Today, when people look for reliability and durability—they choose Marathon water heaters.

Because the Marathon tank is warranted not to leak for as long as you own your home, it will be the last water heater many people will need to buy.

And with its superior dependability and efficiency, Marathon truly can provide hot water for life!
